Title: Establishing a clinical research agenda for spinal osteoarthritis (OA)

Day/time: 24th January 2024, 3:00-4:00 pm EST (9pm CET)

Convenors: Prof. Manuela Ferreira, Prof. Christopher Little, Prof. Sita Bierma-Zeinstra

Presenters: Dr. Alessandro Chiarotto, Dr. Katie de Luca

Objective: Identify a research agenda and agree on priorities for clinical research in spinal OA

Target audience: Spine and/or osteoarthritis researchers, clinicians managing patients with OA of the spine, patient-research partners with spinal OA

Goal of the webinar: The goal of the webinar is to bring together a diverse audience of OA researchers, clinicians and patient partners to vote on a list of research priorities for a spinal OA clinical research agenda.

Program: The program is subdivided in 2 parts. Part 1 will inform participants of the webinar on the results of recent clinical research in the spinal OA field (i.e. de Luca et al. 2023 *Arthritis Care Res*; Chamoro et al. 2023 *Osteoarthritis and Cartilage*). Part 2 will involve the webinar participants voting on research priorities for a spinal OA clinical research agenda.

For OARSI members who cannot participate, there is the possibility to access the recordings of the webinar for up to 2 weeks after it is offered. Additionally, after having attended the recording, it will still be possible to participate in the priorities' voting for up 2 weeks after the webinar has taken place.
